ADMISSION.

Candidates for admission to the Freshman Class are examined in the Grammar of the Latin and Greek languages, Virgil, Cicero's Select Orations, Sallust, or Cæsar's Commentaries, Writing of Latin, the Greek of the Four Gospels, Jacob's Greek Reader or an equivalent, English Grammar, Arithmetic and Algebra through Simple Equations.

Candidates for a higher standing are examined in the same, and also in the part of the Course of Study in College gone over by the Class, to which they may desire admission.

The stated times for examination are the Wednesday preceding Commencement, and the first day of the following Term. But Candidates may be examined and admitted at other times in the year, excepting that no admission to the Senior Class is allowed later than the beginning of the second Term.

Previously to examination the candidate must exhibit satisfactory testimonials, that he sustains a good moral character. If he has been a member of any other College, he will be expected to present a certificate of regular dismission.

No one can be admitted to the Freshman Class, until he has completed his fourteenth year; and no one to an advanced standing, without a corresponding increase of age.

Such students, as are obliged by their circumstances to teach school in winter, are allowed to be absent for the purpose.

EXPENSES.

The following are the principal necessary expenses, exclusive of vacations.

Tuition, $10.00 per Term, - - -	$30.00	$30.00
Room Rent, $2.00 per Term, - - -	6.00	6.00
Recitation Rooms, and Ordinary Incidentals, $2.00 per Term, - - - -	6.00	6.00
Fuel and Lights from $9.00 to $11.00 -	9.00	11.00
Board, lowest price in companies, 75 cents per week; highest price in Families, $2.00 per week; making per year of *thirty-nine* weeks;	29.25	78.00

Good board in Families may be had at $1.50 per week.

The expenses for Room Rent, Fuel and Lights, are estimated on the supposition that two students occupy the same room.

A small charge, additional to the regular Tuition, is requisite the third Term of the Sophomore year, for the instruction in German, which however is at the option of the student; and one of the Terms of Sophomore or Junior year, for the Lectures on Anatomy.

In case of admission to an advanced standing, a fee of five dollars per Term, which is one half of the regular charge for Tuition, will be required, unless such standing shall have been attained in another College.

There are some expenses, which result from taxes voluntarily imposed by the classes or societies. These, and expenses for furniture, stationery, &c., will vary according to circumstances and the character and habits of the student.

In incidental expenses, if the parent or guardian furnishes money, or authorizes the contracting of debts, a student may be very extravagant. To guard against this, parents often deposit funds with some one approved by the Faculty, who for a trifling charge will give particular attention to the pecuniary affairs of the student, and render an account of expenditures.

It is earnestly recommended to all parents and guardians not to authorize the obtaining of credit, and not to pay debts unauthorized.

PAYMENTS.

The amount of the first Term Bill must be paid by each student on his admission. Each subsequent Term Bill becomes due at the close of the Term for which it is assessed. A bond with satisfactory surety for the payment of all the College Bills must be given by each student to the Treasurer, at the commencement of the Term when he enters.

ASSISTANCE TO BENEFICIARIES.

The regular Term Bills of beneficiaries of Charitable Associations, and other indigent pious youth preparing for the Christian Ministry, are ENTIRELY PAID from the fund appropriated to that purpose. A number of indigent students are gratuitously supplied in part with furniture.

LIBRARIES AND CABINET.

The Libraries of the College and the Literary Societies contain about 15.000 volumes. The College Library is accessible to all the students, and the charge to each is according to the use he may make of the books. The Libraries belonging to the two Literary Societies are accessible to the members of the Societies, according to regulations established by themselves.

The Society of Inquiry has a small Museum.

The Cabinet, part of which is owned by the College, and a part deposited by its officers, occupies several rooms, and is arranged and labelled for study.

In Mineralogy, nearly all the known species are represented by about 4600 specimens.

In Geology, there are 9300 specimens of American, and 4900 specimens of Foreign, rocks and fossils.

In Zoology, there are about 1800 specimens of 350 species of vertebrated animals, 6000 species of shells, 5000 species of articulated animals, and 200 species of radiated animals.
